A communication was received from the District-

A communication was received from the District-Attorney in reference to receipts and disbursements in his office. It is no follows:

To the Honorable the Hoard of Supervitors.

GENTANEN: During the period I have held the office of District Attorney. I have received a considerable amount of money on account of forfeited recognizances. A large partion of the amount so received has been paid on the actual and increasity a penses connected with the criminal protecutions of this county, and the balance credited to myself on account of the charges I was entitled to make for official services, the compensation for which is not included in my salary—leaving a balance jet due me. The only returns made by my predecessors of moneys so received of which I have any knowledge, have been made after they had retired from office. Mr. McKeen did not collect a sufficient amount to equal the aggregate of his disbursements and charges; and the Board of Supervisors on the sliet of January, 1951 (p. 42 of the Journal), reflected the balance due, #2.129 of, to be add to him by the Controller. Mr. Sweeney collected more than sufficient, and paid into the treasury a balance of #2.529 96. It was my intention to have pursued the same course. Last year your Honorable Body directed the proper Committee to causing into the matter, and it has also several times been brought before the Grand Jury.

As I was convinced that on each of these occasions, the parties prompting the inquiry, however proper may have been the motives of the gentleman making it, were extunted by hos-

As I was convinced that on each of these occasions, the par-ties prompting the inquiry, however proper may have been the motives of the gentleman making it, were actuated by hos-tile feelings, engendered by the faithful performance of my of-ficial duty in respect to themselves; rnd, as each of the bodies by which the inquiry was made expressed fiself satisfied and declined to take further action. I was content to pass by with contempt the imputations upon my integrity which the origin-al parties designed to make. Now, however, when I am a candidate for re-election, an influential newspaper has directed public attention to the matter, and I therefore deem it due to me, and I respectfully ask, that you refer the matter to a com-mittee for the purpose of a full and thorough examination and report.

mittee for the purpose of a full and thorough examination and report.

It is not necessary for your information, but I desire in this connection to refer to the fact that, on the 10th of November, 1851, the late Nationaled B. Biunt, erg., being then District-Attorney, the Committee on Criminal Courts of the Board of Supervisors, in reporting 1988 2791 a resolution to Increase the salary of the District Attorney, from \$3,000 to \$5,000 states that the reason for the increase was the loss to that officer of the "costs of suits on forfeited recognizances," and they expressly state that there were thereafter to be "no perquisites attached to the office, except fees as counsel for the argument of writs of error, and costs, if allowed by the Judge, amounting to \$10 for opposing motions to vacate judgments on forfeited recognizances. I have made no charges for exvives, except such as were allowed by the Judge 1870 of the 187

quisites attached to the office, except fees as counsel for the argument of write of error, and costs, if allowed by the Judge, amounting to \$10 for opposing motions to vacate judgments on forfeited recognizances. I have made no charges for except such as were allowed by this exception. Yours, respectfully, District. Attorney's Office, New York, Oct. 3, 1861.

Mr. PURDY moved its reference to the Committee on Courts.

Mr. Waterbury and his friends desired an investigation.

Mr. Blunt contended that the District. Attorney

Mr. Blunt contended that the District. Attorney

tigation.

Mr. Blunt contended that the District-Attorney had never been authorized to expend moneys received on account of forfeited recognizances. He felt quite confident that no law could be pointed out authorizing such a course. The matter was debated at considerable length by Messrs. Purdy. Little, Ely, and others, and eventually was referred to the Committee on Courts.

A communication was received from the Mayor retaining the resolution of the Beard authorizing the resolution of the Beard authorizing the

and others, and eventually was referred to the Committee on Courts.

A communication was received from the Mayor retaining the resolution of the Board authorizing the Police Commissioners to pay from the unappropriated funds in their hands \$191.36, for extra work on the new House of Detention for witnesses.

Mr. Bluxt believed the Mayor's views were correct—that the Board of Supervisors had no power over moneys placed in the hands of the Police Board after it was paid over.

Mr. Little thought the right of the Supervisors was clear to make the direction. The purposes for which the Police Commissioners should expend money were specified by law, with the provision, that they should apply money to no other without they should apply money to no other without being anthorized by the Supervisors. A long debate
